Subject: Beginning draft spreadsheet of allegations from NRC petition
Attachments: Allegations Catalog Draft V1 2017-8-14 - not confidential.xlsx

As we discussed earlier, here is a beginning of a spreadsheet showing the allegations from the public NRC petition, main text.

1st sheet shows coding key

2nd sheet shows the allegations themselves. I created a column for "summary" separate from "details" bc if details take up too much space, then they can be put in a separate column without "wrap text" formatting so the info is easily available but won't clutter a printout.

I set it up with a "type of info" code to be able to sort to easily pull out names and locations separately. For timing, I just cut & pasted since it seemed strange to do a separate entry on Sheet 2.

This version of the sheet does not contain confidential information.

Eventually, it will be helpful to add all the allegations from the exhibits to the NRC petition and anything from the other public allegations that is not already covered by the NRC petition. Since that document is so comprehensive, I'm using that as a starting point. There's a lot of overlap between that and the other public documents.
